The next association meeting will be held on

**July 19, 2005**

At

**7:00 PM**

At

**Trabuco Canyon  
Water District  
Offices**

**HOA Web-Site  
Ranchocielo.org**

## Pool Area Upgrades

The repairs to the pool have been completed and the pool has re-opened. Hopefully you were able to attend the "re-opening" party on June 18th and saw the new renovations. If you have not yet had a chance to see the pool area, please do so. We are sure you will be pleased.

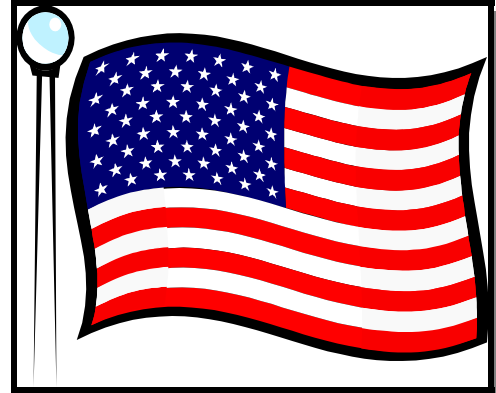

## Street Light Outage

If you notice a street light out in the common area, please contact the management company to report the matter. They will need a location of the light pole and if available, the pole identification number. That number is located on the street side of the pole and is imprinted on a piece of metal that is approximately 3/4" wide by 8" in length. The information will be reported to the Edison Company.

## Iron Fence Painting

Please take a few moments and inspect the fencing around your home. Most residents have some white iron fencing around their homes. This fencing needs to be painted every couple of years to keep it from rusting and failing. Many of our owners need to repaint their fencing. Inspections will be conducted to locate and notify owners accordingly.

*If you need help finding someone to give you a bid to repair and or paint your fencing, please call our manager for a reference.*

# Happy 4th of July

## Basketball Hoops

It is a violation of the association's rules to leave your basketball hoop out in the driveway or on the street. The rules require that you put the basketball hoops away when not in use. The hoops must be stored on the side of your home or in your garage. Your cooperation is appreciated.

## Mosquito Alert

Please inspect your yard and eliminate any areas of standing water. This includes planter dishes, bowls, etc.. If you have a pond or fountain, you need to treat the water or add mosquito fish to eliminate the mosquito larvae. You can obtain these fish and get any questions you may have relating to the mosquito problem by contacting the Orange County Vector Control at (949) 654-2421 or visit their web-site at [ocvcd.org](http://ocvcd.org).
